Manage your security preferences

Our standard protection keeps your finances safe and secure.

- **Strengthen your Passcode** - Having a strong Passcode and changing it frequently is a powerful defense against hackers.
- **You've enhanced your mobile app sign-in**

- **Set up alerts and notifications** - We monitor your account activity and automatically notify you when we see something suspicious. Some security alerts are sent automatically and cannot be turned off. You can increase your security by setting up the following optional alerts and notifications.
TIP: View your Alerts History to see past alerts. You can see your push notification history in the mobile app.
